[@vitvin_v](#)

I'm an AI designer, CG specialist, and art director. I have a strong foundation in 3D, compositing skills, and a photography background – this gives me a solid understanding of composition and color. I create creatives for major brands by combining the strengths of neural networks and traditional computer graphics to achieve consistent results.

TOOLS & SKILLS

GenAI: ComfyUI, Nano Banana, ChatGPT-image, Kling, Seedance

3D & VFX: Blender, Davinci, Adobe Suite, Compositing, CG, AR

Design & Art: Art Direction, Creative Direction

WORK EXPERIENCE & PROJECTS

Clients: AVAVAV, Army Praht, NUME, Ginger Cotton, Yandex, Sber, Samokat, Baltika

Freelance / Independent Projects — Art Director & CG Specialist

2023 - present

- Joining projects as Art Director, defining visual style and creative concepts for brands.
- Author for Щёлочь studio 3D department
- Created fully AI-generated and animated actors for a Yandex.Afisha ad campaign.
- Developing an AR project combining urban stickers with interactive 3D scenes.
- Build custom ComfyUI pipelines for fast and controlled workflows on large-scale projects.
- Created an animated video combining traditional claymation, photogrammetry, and digital asset integration into real footage.
- Develop visual effects, integrating 3D objects and generative graphics into live-action video.
- Designed the Nature Cards board game, blending 3D animal models (Blender) with traditional pastels.

Sangria Jewelry - Creator & 3D Designer

2022 - 2023

- Designed custom 3D jewelry pieces in Blender for physical manufacturing.
- Developed 3D renders and promotional creatives based on custom models.
- Built the foundation for my art direction practice by creating visual worlds for product advertising.

Independent projects – Photographer & Creator

2019 - 2021

- Organized the "russian toska" art project, combining photography, zine publishing, and urban installations.

EDUCATION & COURSES

- Щёлочь Digital Fashion Course — Marvelous Designer, Clo3D, working with digital avatars (2025)
- Project Photography Course — Summer School / Letnyaya Shkola (2019)
